THE WEATHERBY GEORGE BOOKCASE CO.

Weatherby George specializes in custom-made bookcases. Made from French Oak, these bookcases come in a variety of configurations - from a single unit at library height to a corner unit with custom cupboards. They are finished with your choice of wood polish or paint.

Weatherby George will come to your place to measure, so the bookcase can be tailored to fit any space. We consult on colour, finish and specifications.

SINGLE UNIT

STANDARD

H 2200mm
W 800mm
D 300mm

LIBRARY

H 2600mm
W 800mm
D 400mm

Right -- Two finished single unit bookcases, one completed in a paint finish and one polished in a Mylands "Dark Oak" wax.

The Single Unit comes in a standard height of 2200mm, width of 800mm and depth of 300mm. The 300mm depth is sufficient to stack an A4 level arch file.

The standard height can be further modified to a height of 2600mm, or even 3000mm, and a depth of 400mm. As with all units, the exact height, width and depth is flexible and can be tailored to fit your particular space.

DOUBLE UNIT

STANDARD

H 2200mm
W 1600mm
D 300mm

The Double Unit is effectively the same size as two single units side-by-side. As with the single units, the double can be modified to library height with extra depth.

Right -- A Weatherby double unit finished in Mylands "Antique Brown" wax.

TRIPLE UNIT

STANDARD

H 2200mm
W 2400mm
D 300mm

The Triple Unit comes in the standard height and depth with a total width of 2400mm.

Right -- This triple unit is of the library size, but it was modified with cupboards at the base. A rail fitted at the top with a ladder was fitted at the request of the owner so easier access to the higher shelves. This was one of our first truly bespoke models.

CORNER UNIT

STANDARD

H 2200mm
W 1900mm
D 1100mm

The Corner unit has a total standard width of 1900mm and a return of 1100mm.

Right -- This set was finished in a Mylands "Dark Oak" wax, and with the top mouldings removed this created a strong, streamlined effect.

TV UNIT

STANDARD

H 2200mm
W 1600mm
D 400mm

Weatherby George's TV Unit has been specially designed to accommodate a modern flat screen monitor. The standard depth of 400mm is adequate support for a TV base. To the far left is Weatherby's original TV unit, and left is an alternative version with cupboards beneath.

Right -- The central shelf of this unit was deepened to accommodate the TV base. To maintain the original proportions of the bookcase this shelf was extended to sit flush with the outer frame.

Left -- This TV unit was designed to sit between two standard units on either side. The extra shelves double as handy storage for DVDs and CDs.

BREAKFRONT UNIT

TRIPLE BREAKFRONT

H 2600mm
W 4000mm
D 300-400mm

Weatherby George's breakfront units are based on a traditional breakfront bookcase design.

The Breakfront Unit comes in either a triple- or double-break. The 'break' itself has a depth of 400mm, the shelves on either side are 300mm deep.

The sketches (*left*) are illustrated in the library size (extended height to 2600mm), but the breakfront units are also available in standard sizes.

DOUBLE BREAKFRONT

H 2600mm
W 3200mm
D 400mm

DRESSER-STYLE UNIT

STANDARD
H 2200mm
W 2400mm
D 300mm

This style was born out of one of our original triple bookcases (pictured right). The cupboards beneath afford good storage while the open shelves above are ideal for display.

A rail and library ladder can also be fitted to enable easy access to the top shelves.

OVER-DOOR UNIT

STANDARD
H 2200mm
W 2400mm
D 300mm

The Over-Door Unit has been designed specifically to frame a standard door size.

Right -- It can also be modified to incorporate double doors.

Below -- You can even have a secret door!

The Weatherby Secret door comes in a depth of 40mm - enough width to stack faux books that make the door disappear into the library.

PAINTS AND POLISHES

The polish we use is Mylands wax, a natural product made from beeswax and carnauba wax. Mylands is highly regarded by furniture restorers around the world and leaves a beautiful finish on any timber.

Colours available include:

Dark Oak - Antique Pine - Mahogany - Stripped Pine - Antique Brown

Paint finishes are available in any colour. We often colour-match to existing pieces.
